### DETAILED ACTION

1. This is in response to applicant's amendments received on 12/28/00, all requested changes to claims have been entered. And, the rejections under 35 USC 102 are withdrawn.

#### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103© and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 2623

3. Claims 1-3, 6-8, 18-20, 23-25, 35-38, 40-42 and 46-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takagi et al. (US 5801965) in view of Broude et al. (US 5814829).

With respect to claims 1-3, 6-8, 18-20, 23-25, 35-38, 40-42 and 46-47 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (paper # 9). For claims 1, 18, and 37 see the rejection for the claims 4-5, 21-22 and 39, because the limitations of claims 4-5, 21-22 and 39 are incorporated into claims 1, 18 and 37.

4. Claims 43-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takagi et al. (US 5801965) and Broude et al. (US 5814829) as applied to claim 38 above, and further in view of Shahar et al (US 5591971).

With respect to claims 43-45 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (paper # 9).

5. Claim 48 is rejected under 35 U.S.C. 103(a) as being unpatentable over Takagi et al. (US 5801965) and Broude et al. (US 5814829) as applied to claim 46 above, and further in view of Tsuchiya et al (US 5960106).

With respect to claim 48 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (paper # 9).

***Remarks***

6. In the amendment filed at 12/28/2000, applicant argued that:

In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988); *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, .

In this specific case, Takagi's method and system for manufacturing semiconductor devices and method and system for inspecting semiconductor devices, inspects the wafer and classifies the defects, and Broude's teachings of having a counter for counting the defects and annunciating a signal if the counter goes over a predetermined threshold. It will be obvious for one in the ordinary skilled in the art to combine the two to form a inspecting system that will have a classification counter and does annunciates if counter exceeds the predetermined threshold, this will provide an apparatus that will either complete the process or cease the process (see col. 2, lines 10-15).

*Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
